FINANCIAL AND COMMERCIAL

The Speech of Mr. Dawes from a Financial Point of View.

RETRENCHMENT AND SPECIE.

Reasons Why We Can Resume and Redeem.

A DULL STOCK MARKET.

Money Easy, Gold Stronger and Business Waiting Upon National Legislation.

WALL STREET, PRIDAY, Feb. 13-6 P. M. The speech of Mr. Dawes, in the House of Representatives yesterday, is full of meat and suggestive to all who enjoy strong pabulum. It was largely. made use of to-day in the stock market as an argument incidentally and inferentially pointing to further inflation, and did unquestionably for a time give to prices a firmer tone. It will be re-membered that Mr. Dawes suggested three plans whereby the government could extricate itself from the financial predicament and escape bank-ruptcy—first by taxation, second by a further loan d third by retrenchment. But because he was silent on the subject of a further issue of legal tenlers, and because he demonstrated, as far as his igures would permit him to do, that

THE TREASURY at the end of the fiscal year—July 1, 1874—would be weaker by \$50,000,000 than at the same time in 1873, it was assumed that the drift of the speeca was in favor of inflation. There is no good reason for such a belief. Mr. Dawes simply, in a brave, dispassionate way, arraigned a republican Congress for its extravagance, exhibited the imbecility of its legislation, and suggested, what has so often been urged in these and the editorial columns of the HERALD, the only honest nethod of relief-to wit, retrenchment. The country has had enough of taxation, and until the forced loan of \$400,000,000 of greenbacks and fracdonal currency has been paid back to the people we want no more of this sort of irredeemable "promises to pay." In that one word "retrenchent" is the panacea of our ills, and no arguent was ever more conclusive than the simple fact cited by the Representative that in 1870 we exed \$309,000,000 and paid off \$100,000,000 of the debt. In 1871 we expended \$292,000,000 and paid off \$94,000,000 of the debt. In 1872 we expended \$277,000,000 and paid \$99,000,000 of the debt. In 2873 the expenditures rose to \$290,000,000, and only \$43,000,000 of the public debt was paid; while for the present year \$419,000,000 were appropriated, and we have paid none of the debt. If there be dded to the above figures the amount of THE DEBT RETIRED

between March, 1869, and July, 1869, we have a grand total of \$377,000,000 in gold, less about 230,000,000 of 3 per cent certificates-more than enough to have put the country on a specie paybasis and added untold wealth to all of its enterprises. When men talk about the impossibility of gradually resuming specie payment let them recall these figures and remember that what the government has so recently done in accumulating gold may be done again, even on the present basis of taxation, by reducing public expenditures somewhere near the point at which they were prior to the war. The decline of revenue and customs re-ceipts at present felt is the natural sequence of the panic. If it continues, the blame will fall upon Congress alone; for upon the prompt action of that body depends the settlement upon a firm foundation of those principles which alone give

THE MONEY MARKET. No changes are to be recorded in this departent. The rates on call loans continue at 4 and 5 per cent, with an abundance of offerings. ADVANCES IN COAL.

While all classes of the community are striving to relieve the wants of the poor the coal companies and dealers are piling on the prices. The Delaware and Hudson Canal Company, one of the biggest, wealthiest and, we may say, the most relentless and soulless corporations in the country, have given notice, by circulars, to retail dealers that hereafter all coal shipped by them will be weighed as net tons of 2,000 pounds each, instead of as heretofore, gross tons of 2,240 pounds each, with no allowance for waste. The same circular also porified the dealers of a slight reduction in price; but, on account of the decrease in weight, the cost to them is practically advanced twenty-two cents per ton for stove and egg coal and thirty-two

BROOKLYN EXCISE TRIALS. The Constitutionality of the Law Ques-Yesterday eighteen liquor dealers and lager beer

saloon keepers were arraigned for trial before the Board of Police and Excise Commissioners to answer the charge of having violated the Excise law. thereby making themselves liable to forfeiture of license. They were charged with keeping open stores on Sunday, and with having sold liquors between the hours of one and five o'clock in the morning. About 150 witnesses were present, and several lawyers appeared to defend the cases, at the trial room, Police Headquarters, corner of Court and Livingston streets. There were present on the bench Commissioners Jourdan, Briggs and Jensen. Mr. Eschwege, counsel for one of the accused, argued that selling beer on Sunday did not constitute a violation of the statute; also that the Legislature had not conferred upon the Board the powers of a court of justice. The constitutionality of the Excise law was questionable, for the reason that the charge made against his client derived him of his right of trial by jury. Four cases were dismissed and the others were adjourned until Friday next. tween the hours of one and five o'clock in the

A raid was made upon the liquor sellers in Great Falls, N. H., last week, and ichabod Pearl, Thomas D. Locke, Joseph A. Hill. Thomas M. Wentworth, Robert H. Hussey and True W. Woodman were arrested and taken before the police court, where they each gave ball.
